

“Part B for electrical cables and wires” (NPCR 027 version 2.0) of EPD Norway has been adopted as a Rakennustieto c-PRC_002 with following adaptations and specifications:

- All references to “NPCR part A” or “Part A” or “EPD-Norway’s guidelines” are replaced with references to RTS PCR (12.11.2024).
- If there is an applicable UN CPC code for the product, it shall be stated in the EPD (in the product description section).
- Guidance and requirements of RTS PCR (12.11.2024) and EN 15804:2012+A2:2019/AC:2021 not referenced to in the PCR also apply.
- In Sections 7.2.6 and 7.2.7 are mentioned additions that are missing. These shall be ignored.

The PCR is downloadable at <https://www.epd-norge.no/pcr-register/npcr-027-2022-part-b-for-electrical-cables-and-wires-references-to-en-15804-a2-article3932-353.html>.

Prepared by The Norwegian EPD Foundation (EPD-Norge), Norcable, Tec-Con, Statnett, Elektroskandia, Ostfold Research

This PCR has been accepted by RTS Principal committee 42 on 12.11.2024.

This c-PCR shall be taken in use 6 months after it has been accepted in Principal committee.
